Summary

I'm a B.Tech CSE student passionate about AI, Machine Learning, and full-stack development, with a strong interest in building impactful and intelligent digital solutions. My work combines technology, creativity, and data-driven thinking through projects in predictive analytics, web development, and modern UI/UX design. Beyond coding, I'm also a creative artist and designer who enjoys blending innovation with visual storytelling and problem-solving.

Education

- - 2027

Dr Shakuntala Misra National Rehabilitation University (DSMNRU), Lucknow

Graduation • B.Tech/BE (Bachelor Of Technology/Bachelor Of Engineering)

• Computer & Management

Percentage - 80% • CGPA - 8.01

I'm a B.Tech CSE student passionate about AI, Machine Learning, and full-stack development, with a strong interest in building impactful and intelligent digital solutions. Skills

- HTML
- ML Model Monitoring
- Node.js
- Python Scientific Libraries (NumPy, SciPy, Pandas)
- UI Styling (CSS)
- Data science
- Python/PyTorch
- Web scraping/ EDA
- SQL/Excel
- Python libraries
- HTML/CSS/JS
- React.js/tailwind Css

Projects

Stylish greet card generator

[Project Link](#)

The Interactive Greeting Card Generator is a simple web-based tool that allows users to create personalized greeting cards

To-do-list app

[Project Link](#)

Daily task tracker list app, made with simple style and code

CGPA calculator

[Project Link](#)

It's a stylish UI Calculate made for students to Calculate their college gpa, according to credit of subjects and achieved grade point

Data task handle

[Project Link](#)

Handles large data-set, used Python libraries numpy, pandas, matplotlib, seaborn, BeautifulSoup, and API call request for web scraping

Maintaining cleaned, structured, visible data insights, through data visualization and future engineering

Personal portfolio

[Project Link](#)

Design my own work space to showcase my knowledge, and yes it's my portfolio
